

Fire Warden Training

“Training your staff will actually want to go to!”

At Vigilaris we understand that every client is different. Different businesses, different premises, different needs, so that is why we tailor our Fire Warden Training Courses to meet your precise and particular needs.

Whether you need to train Fire Warden, Fire Evacuation Marshals or Evacuation Wardens, this training is designed to provide the required knowledge, skills and confidence to ensure each participant carries out their assigned duties in a safe and proactive manner.

Whatever those needs happen to be, you can be sure that every course is designed to be interesting, interactive, legally compliant and, just as importantly, fun!

The Fire Warden Course is held on your premises, for up to 15 people, and is designed to give your appointed Fire Wardens the skills and knowledge they need to carry out their duties and ensure the safety of your staff and premises.

Duration

Fire Warden Training courses are designed around the time available for staff and usually range between 3 and 6 hours long.

Customisation

As the Fire Warden Training is delivered in your premises, we recommend each client customises the training by providing us with your company's logo, fire emergency procedures, fire warden training role description, evacuation plans and any other relevant information that needs to be shared with your employees. The information provided will then be added to the relevant section of the training and will be included as an integral part of the training course. There is no additional charge for customisation.

Equipment and Fire Simulator Trailer

This training course is delivered on the client's premises. Therefore it is important that a suitable room for training is made available. All we need is a projector, screen and the necessary cables, however, we can bring these items should you not have them on site.

All our Fire Warden Courses also include a practical session using our Fire Simulator Trailer. To ensure we comply with our insurance requirements, we need to be able to position the trailer in an open space (approximately the space is the equivalent of 2-3 parking spaces).

UNIQUE TRAINING, ENGAGING SOLUTIONS

Certification

Upon successful completion of the training, each participant is issued with a Certificate of Attendance, which are sent directly to your office within a few days of the training course. Additional testing of the knowledge gained may be provided depending on your specific requirements.

A sample structure of the Fire Warden Training is as follows:

- **Introduction**
An opportunity for the trainer to introduce him/herself to the attendees and set the classroom atmosphere to ensure an open and engaging learning environment.
- **Background and Objectives**
Why Fire Warden Training? Basic legal overview of the responsibilities and role of the Fire Wardens/Marshals.

An understanding of the dangers of fire
An insight into how fires start and spread. This also includes those preventative measures we can take to prevent fires and fire spread.
- **Building Protection**
Emergency Lighting, Alarms, Fire Detection, Lifts, Fire Doors and more.
- **Human Behaviour in Fire**
A review of human behaviour in an emergency, delivered through a variety of visual techniques, including videos and other engaging and eye opening means.
- **Role of Fire Warden - Basic**
Staff action on discovering a fire, raising the alarm etc.
Your site specific evacuation procedures and roles/duties of the fire warden/marshal.
- **The Fire Extinguisher**
Theory on the use of fire extinguishers.
- **Live Demonstration**
Hands on practice session with our live demonstrator trailer. A safe and effective way for your staff to practice using a fire extinguisher on different types of fire scenarios in a safe and controlled environment.
- **Summary**
Review, Q&A, Competency test if required.
